Product Owner

We are looking for an enthusiastic and promising entry-level Product Owner who is passionate about defining cloud solutions' feature sets and building digital products. This role is ideal for recent graduates or those looking to transition into product management. We offer flexible working hours and a friendly environment for our employees. Maintaining a fun and friendly atmosphere for our team members is one of our main goals.

Job Type: Full-time

Location: Cairo Office in Heliopolis **OR** Remotely

Candidate Qualities:

- Passionate about delivering outstanding, different, and usable products
- Eager to learn and continuously improve skills
- Smart, flexible, and quick learner
- Creative and out-of-the-box thinker
- Attention to detail
- Ability to tackle new challenges
- Customer-centric mindset
- Interest in data-driven decision-making
- Excellent communication and interpersonal skills
- Ability to work well with cross-functional teams
- Keen interest in new technologies and industry trends
- Loves to share knowledge with others and listens to other people's thoughts and achievements
- Open to receiving different opinions and able to defend their thoughts
- Product-oriented mindset

Required Skills:

- Strong command of English language; written and spoken
- Basic understanding of digital product development lifecycle
- Familiarity with Agile methodologies
- Proficiency in using productivity tools (e.g., Microsoft Office, Google Workspace)
- Strong analytical and problem-solving skills
- Basic understanding of user experience (UX) principles
- Basic understanding of cloud solutions and services
- Familiarity with web and mobile technologies
- Excellent organizational and time management skills

Optional Skills:

- Familiarity with market research and competitor analysis techniques
- Experience or coursework in product management or related field
- Knowledge of product roadmapping concepts
- Understanding of basic statistics for data analysis and KPI tracking
- Experience with project management tools (e.g., Jira, Trello)
- Familiarity with backlog management and prioritization concepts

- Knowledge of A/B testing and experimentation methodologies
- Experience with business reporting tools
- Familiarity with product analytics tools (e.g., Google Analytics, Mixpanel)
- Knowledge of SQL for data analysis
- Experience with prototyping tools (e.g., Figma, Sketch)
- Knowledge of digital marketing principles

Job Responsibilities:

- Assist in understanding business needs and requirements, and learn to convert them into well-defined feature sets
- Assist in generating roadmaps for our products that align with business targets and objectives
- Learn to convert features into well-defined, well-documented, and complete stories for development teams
- Collaborate with UX Designers to understand and contribute to delivering complete user experiences
- Participate in market research and competitive analysis to inform product strategy
- Learn to set and measure KPIs to track product performance and success
- Assist in using business reporting tools to analyze data and support decision-making
- Collaborate with cross-functional teams (design, engineering, marketing) to deliver high-quality products
- Help manage the product backlog, including prioritization and grooming
- Participate in sprint planning, daily stand-ups, and retrospectives
- Assist in conducting user research and usability testing to validate product ideas
- Learn about A/B testing and experiments to optimize product features
- Help create and maintain product documentation, including user stories and specifications
- Participate in beta testing programs and help gather user feedback
- Stay up-to-date with industry trends and emerging technologies
- Contribute to the development of project management processes and best practices
- Participate in user acceptance testing and quality assurance processes
- Support the go-to-market strategy for new products and features

Your Benefits:

- Competitive Salary
- Flexible working hours
- Ability to work from home whenever needed
- Social Insurance
- Medical Insurance
